

April 1, 2009

To Our Valued Customers:

We have reviewed the REACH Regulation as applicable to the products we supply. According to the regulation, the products that are supplied by Amstek Metal LLC are considered "articles" and therefore exempt from registration requirements.

We have reviewed the current listing of SVHC (substances of very high concern) and have determined that none of the items on the list are present on or in the products we supply.

Sincerely yours,

A handwritten signature in cursive script that reads "Clara Bal".
